# High Performance Sustainable Schools

March 6 - 7, 2007 • Sloan Convention Center •  
1001 Wilkinson Trace • Bowling Green, Kentucky

Caywood Elementary has proven itself to be a "high performance" school. On average, it uses half the energy of our other schools. The first year's energy savings total was \$45,732 or 44 percent.

---Chris Baker, Energy Manager, Kenton County Schools, on the district's first high performance school.

## Workshop is endorsed by

- Kentucky School Plant Managers Association
- Kentucky School Boards Association
- USGBC-Kentucky Chapter

## In Cooperation with

- AIA Kentucky

## Continuing Education

Attendance at this workshop qualifies for AIA learning units and EILA and KSBA credit hours. Certificates will be provided to attendees.

## Lodging

A block of rooms is reserved at the Holiday Inn University Plaza in Bowling Green, KY until February 3 at a discounted rate of \$94. For reservations, call (270) 745-0088 and indicate you are with the Kentucky High Performance Sustainable Schools Workshop.

School districts across the country are finding that high performance school design, renovation and well-managed operation can help them save money and provide a healthier, more effective learning environment. This workshop is for school board members, superintendents, facilities managers, architects and engineers who want to learn how to incorporate high performance sustainable concepts.

## Featured Site Visit

Participants will learn about high performance principles and visit a new high performance school in Warren County. The team that managed the project will guide the participants through the planning process, showcasing examples of the high performance design elements and the benefits they are realizing based on those choices.
